

SHINE YOUR LIGHT ON ME

Your eyes
I know your eyes tonight,
I can see them in the darkness shine
Burning through the heart of night
Like a diamond in the candle
soft light of a candle
soft light of a candle
and who
could ever hold a candle to you?

Your smile
I know your smile tonight
I can touch it as my fingers slip,
reaching out to you tonight
like moonlight on the water
dancing like the shadows
softer than the shadows
and who
could ever cast a shadow on you?

Tonight, you shine a light that I can see
let it shine down on me,
you shine a light that I can see.

Your eyes
I know your eyes tonight,
I can see them in the darkness shine
Burning through the heart of night
Like a diamond in the candle
soft light of a candle
soft light of a candle
and who
could ever hold a candle to you?

(mid 8)

Tonight, you shine a light that I can see
let it shine down on me,
you shine a light that I can see.

your love
I know your love tonight
burning through this heart of mine
burning in my heart a while
like lovers light a candle
a moment like the candle
shines a moment like the candle

but who
could ever shine that moment like you?

Tonight, you shine a light that I can see
let it shine down on me,
you shine a light that I can see.
Tonight, you shine a light that I can see
let it shine down on me,
you shine a light that I can see.
